

KALYANI TECHNOFORGE LIMITED

TO WHOM SO IT MAY CONCERN

Date: 16/03/2019

This is with respect to Welding consumables of ADOR Welding Ltd. for repair and reclamation of hot forging press dies at our Mundhwa unit, Pune.

ADOR's Gas shielded metal cored wires **AUTOMIG MC 40 & AUTOMIG MC 50** of 1.6 mm and 2.4 mm diameter used for repair of forging dies.

Welding performance and machinability of both these products found satisfactory and acceptable. Die life achieved upto 7000 pcs as per our target requirement.

ADOR's welding consumables meets our expectation in terms of forging die life and satisfied with the service provided by ADOR Welding Ltd.
